THE NEW

No. 1 Vol. 2 Thursday, March 22, 1951

THE RAYMOND LION

The Raymond Lions Club held their regular meeting in the Opera House Club Rooms on March 19 at 6:30 with President Rayo-Woolf conducting the business. Thirty-three members were present and enjoyed a very lively business meeting. The President announced a big party on April 2. One meeting was cancelled on March 5 because of the big freeze and much snow — the boys have an extra meal coming so on the first Monday in April every Lioness will bring her husband or pal to dinner — the family gets two meals for one. The program committee promises a very entertaining evening.

Herbe Wilde, Jack Evans and Melvin King were appointed as Nominating Committee and will present a slate of officers for 1951-52 to the Club on April 16 with the election taking place at the meeting three weeks later, on May 7. The Club officers are elected one month in advance to allow them to attend the District Convention in Calgary from May 16 to 19.

Paul Moreland's committee on Sight Conservation gave an extensive report on their work. The canvass for funds to support the Calgary School operated by the Canadian National Institute for the Blind was finally closed. This has been dragging for a long time. The Club members did not co-operate too well — only twelve Lions made their canvass and only half of the Club contributed personally. The Club collected \$310 last year, \$84 of which was for the Club's expenses. This year \$236 was collected, \$36 of this from Lions. This is one of the major projects of Lions International — our record is not very flattering to the committee.

The committee for Sight Conservation is much more proud of their Sight Survey conducted in the two local schools. Cliff Palmer of Lethbridge was again contacted and agreed to carry out a complete Eye-testing Service to all our students who were not tested last year. The Grade One pupils and all students in High School were given a careful eye examination and complete records were made of every boy and girl whose tests indicated any weakness. Mr. Palmer then left a copy of the record in each school and sent a personal letter to the parents of such children advising them of the irregularity and suggesting that the child be taken to the family doctor for a more extensive testing, and then be fitted for glasses if they are necessary. This was not a propaganda scheme or business advertisement by Mr. Palmer — the Lions Club paid his travelling expenses and paid for his services. After the survey was made the parent could take his child to any doctor he pleased or he could ignore the advice entirely.

Mr. Palmer spent ten Wednesday afternoons, three hours each, and tested three hundred and forty students. One hundred and twenty-five letters were mailed. The Lions Club backed the credit for several pairs of glasses and Paul Moreland and Bert Powelson took an afternoon off to take five youngsters, whose parents did not have cars, to Lethbridge to be fitted for glasses.

The Committee spent much of their time and money with this project and the community as a whole has appreciated this worthwhile service. Many parents have expressed their appreciation to the Lions Club.

This is a continuous service of the Lions Club and has been carried on for several years. The Lions hope the parents understand their objective and will co-operate to improve the learning capacity of handicapped boys and girls by providing glasses when needed. Parents and teachers may not realize the cause of the trouble — only careful periodic testing will reveal the whole picture.

J C C A Notes

Tucker Hironaka, Tosh Saruwatari, Gus Moriyama, Munee Takeda and their wives represented the local chapter of the JCCA at the banquet held in the Civic Centre in Lethbridge on Wednesday night. The banquet was held to celebrate the final settlement, by the federal government, of claims in connection with the removal of Japanese people from the west coast. Mayor Turcotte and Ald. Virtue were guest speakers at the occasion that also marked another milestone in the Japanese Canadian settlement in this area.

Things You Should Know

The move to change our present cemetery from a place where weeds grew rampant to a place where we could lay away our loved ones with honor and respect had its beginning at a U.S.W.A. meeting in the days before the last war. A committee of seven was appointed and they appealed to the Town Fathers for permission to clean up our cemetery. Permission was readily granted. Many changes have come about since the first committee was organized. Three of the original members now rest in the cemetery, two have moved from Raymond to make their home elsewhere and two of the original members are still on the Board.

The first big problem facing the committee in those days was the bank of drift soil that completely covered two fences on the west side of the cemetery. Arrangements were made to purchase a few rods of land to the north of the cemetery and the two fences, one on top of the other, were taken down and replaced by a new fence which completely surrounds the cemetery.

In the first clean-up it took three wagon-loads to haul away cans and bottles and other containers that had been taken there to hold flowers, as well as the old wire frames from flower wreaths. Many of the graves were in deplorable condition, some taking as many as twelve wheelbarrow loads of dirt to bring them up to the level of the ground. The ground was as dry as a desert with the wind blowing constantly over it and without water it was impossible to make it beautiful. The Committee commenced to raise money to instal a water system and in this connection a number of engineers visited the site and a rough estimate of \$2,000 was given in 1939. Work was started immediately to raise the required money for the proposed line. Then followed the war years when it was impossible to obtain much of the needed material. By the time the money was raised the cost had doubled but through the co-operation of the citizens of our town the water line was laid and has been in use for two and a half years.

(continued on page two)

Mr. Grant Card, Mrs. Kate Card and Mrs. Vivian King motored to Shelby this week taking the two Mrs. Holmans on the first portion of their trip home to Portland.

Hellicats Beaten 1 Point

Congratulations to the Hellicats! To the victor goes the spoils but in this case the loser deserves a lot of praise and credit. In the past two years these girls, under the guidance of Coach Derrald Miller, have played many games and won them all but two. Undeclared last year and in a similar position up until the playoffs in the current season the High School girls have set a high mark for future teams to shoot at.

In thirteen games this year the girls lost only two but they were the play-off ones with the Lethbridge Queens and they were lost by heart-breaking one and two point margins.

The girls were great in victory last year and they are great in the hearts of their faithful followers this year.

Kathleen Taylor Weds Frank Newman

Saturday, March 17th, marriage vows were exchanged in the Alberta between Kathleen, the daughter of Mr. and Mrs. Frank Taylor, and Frank Newman, the son of Mrs. Ray Whitmeyer of Ogden, Utah. President Lloyd Cahoon officiated.

A breath of Spring in the form of pink apple blossoms made a lovely setting for the Reception which followed in the Stake House, with many relatives and friends calling to wish the happy couple much happiness.

The radiant bride chose a lovely gown of blue pink satin fashioned with a sweetheart neckline edged with seed pearls and rhinestones; a fitted bodice which flowed into graceful folds in the skirt, and lily point sleeves. The chapel length french veil cascaded from a dainty bonnet style coronet also made of lace and trimmed with seed pearls. Her only jewelry was choker style pearls, and she carried a beautiful bouquet consisting of feathered carnations and lily of the valley surrounding an orchid.

In the receiving line were Mary Newman, the groom's sister, Marolyn and Carolyn Taylor, all bridesmaids, gowned in blue satin and carrying bouquets of red roses and white carnations, the bride and groom, the best man, Harlan Taylor, Mr. F. R. Taylor, Mrs. Whitmeyer, Mrs. Taylor, Mrs. Terry, the groom's aunt, Mr. and Mrs. Byron Anderson and little Lynne Anderson in a floor length gown as flower girl.

Mrs. Whitmeyer chose for her son's wedding a gown of white crepe to which was pinned a corsage of tall-man roses, and Mrs. Taylor was gowned in light blue crepe and wore a corsage of sweetheart roses. Mrs. Terry chose a black crepe frock and Mrs. Anderson a gown of rose satin.

The guests were greeted in the foyer by Mr. and Mrs. Glen Meeks and Mrs. Lincoln Wood; little Rickey Meeks and Suzanne Wood carried the gifts into the attractively decorated gift room where Mesdames Arledge Hill, Wm. Anderson, and Arlie Hudson (continued on page three)

Just Penning Thanks

(Margaret Huszar)  
Wow! Anybody still digging out? That was some storm! There are advantages to storms like that, too, or, everything has its good side. School was adjourned for the day. I hear there were a few fearless, adventurous souls that reported but the majority were quite content to sleep in after one look outside.

We will certainly have a different type of Easter parade. Instead of light summer suits and coats we will, in all likelihood (unless the famous Chinook does its duty) strain to see who has the latest style overshoes or mitts.

Heard in the hall:  
"What are you buying for Easter?"  
"I guess a fur coat, earmuffs, galoshes, a scarf & fur mitts should do."  
The new executive is really crackin'. They are planning parties and dances and they have sent for school crests, even if someone did hook the sample from the bulletin board.

Basketball play-offs are coming up, too. Bring back the trophies, girls and boys!

There is a new rage in school. It consists of tight fists clenched over a nickel, and a mad fight to the Home Ec room. The students have been making popcorn balls, everybody's favorite food (next to chocolates). The proceeds go toward modernizing the H.E. room. Good (you're telling me) project!

A Very Happy and Blessed Easter, everybody!

Mrs. Elizabeth Wiley of Cardston is visiting at the home of her son and daughter-in-law, Mr. and Mrs. Mike Holland.

Your Government

By Andy Snaddon  
There's talk of almost everything from cabbages to kings in the Alberta legislature these days as the government goes through the work of spending your money — all \$94,000,000 of it. Each item must be passed separately. Hon. Peter Dawson, Speaker, leaves the chair and the house is resolved in to committee of supply, with James Hartley, Macleod as chairman. Each member can question each item and make suggestions on it.

For instance when the department of agriculture estimates were gone over Harry Lobay, Beaver River, praised the work of district agriculturists and suggested more than the present 44 should be provided. Hon. David Ure, minister of agriculture, was quick to agree, but pointed out that new agriculturists were given practical training under experienced men, and this took time.

Mr. Ure also announced plans for irrigation. A \$3,000,000 program will take place in the south-east section of the province. Included will be a 2,400 siphon across Forty Mile Coulee South of Bow Island, from the coulee a canal will be built to near Bow Island and east to the Medicine Hat area.

A 20,000 acre feet reservoir would be built at the end of the canal system near Medicine Hat and a reservoir would also be built at the head of Forty Mile Coulee as well as a spillway. Distribution systems are scheduled for Yellow Lake, Grassy Lake, Burdett, and part of the Bow Island system. Tying in with the Federal government main canal on the St. Mary project the government would build a canal in the Magrath area.

The coyote question was also brought to the fore on a vote for \$25,000. Mrs. C. R. Wood, Stony Plain had urged that a bounty be paid to farmers, who did more exterminating at their own expense than professional hunters, who were paid. Mr. Ure replied a new plan was being drawn up, but there would be no bounties. He did reveal that orders had been placed for 10,000 cyanide guns and 50,000 shells. It is expected that the new, dangerous 1080 poison will be used.

Mr. and Mrs. Evan Jensen were visitors in Calgary last week.

Because of its record of service and its great potential for service, the Canadian Red Cross Society merits widespread public support in its annual appeal for funds now being held, declared the Hon. Paul Martin, Minister of National Health and Welfare, whose department now administers civil defence.

"In peace and in war, the Canadian Red Cross Society has given splendid service to the people of Canada and to the cause of humanity," the Minister said.

Your Help Is Needed By the Red Cross

After three weeks of canvassing in Raymond and District, Canadian Red Cross Campaign Manager Mrs. Frank Hall announced today that only about half of the \$1,600 quota has been reached.

"The campaign is progressing — but slowly," said Mrs. Hall. "It will take the concerted effort of everyone to meet our quota. We earnestly ask everyone to donate as much as possible to the Canadian Red Cross. It appears now that the smaller donations will have to be more plentiful than ever before so we especially ask those who have never contributed before to come forward and help us fulfill our obligations to this worthy organization."

This year the Red Cross canvassers are emphasizing the new Alberta Red Cross Crippled Children's Hospital in Calgary which opened March 3, for the care of children whose parents cannot afford prolonged orthopedic care. Patients are admitted from all over Alberta, the Peace River Block and the North West Territories.

But while much Red Cross work is done at home, the Society has international obligations as well. For example, the Canadian Society's medical-social welfare team was the first to be sent to Korea to work under the UN with civilian refugees. The Society has allocated nearly half a million dollars to international relief, including grants for Korean refugees.

THE NEW RAYMOND RECORDER

The Ladies Curling Club report a very successful year, both financially and socially. Many thanks go to Hilda and Connie for collecting the prizes and donations for the Ladies Bonspiel; Gladys King for the making and supervising of the selling of the tickets for a five-pound box of chocolates; Marie Kinsey and Geneva Erickson for supervising the counter during the Mens Bonspiel; Eva Ralph and her co-workers for the Men's Banquet. The executive join in thanking all club members who so willingly donated their help and all business houses for their kind cooperation this year. They report that they will have a sizeable cheque to turn over to the Men's Club to help out with the expense of the new artificial plant.

Large Crowd Attends 4th Ward Program

A very enjoyable musical hour and a half commenced Tuesday in the Stake House, with the singing of "It's A Grand Night For Singing" by a Stirling Group of ten 'cowgirls' and 'cowboys'. From there the program rolled along with choruses, trios, duets and solos, interspersed with light humor or by the M. C. The little curly headed 5 foot that came galloping on the stage on her hobby horse, nearly stole the show with her rendition of "I've Got Spurs That Jingle Jangle, Jingle" and 15 other cowboy tunes. Their program concluded with the highly entertaining song "So Long".

While the stage was being made in to the living room of the Alden home for the play being put on by the 4th. Ward Mutual, Mr. Kirkpatrick's Ladies Chorus beautifully sang two songs "Your's Is My Heart Alone" and "God Bless America".

Joe McLean (substituting for Orson Bingham who was in bed with the flu) Phyl Meeks, Gladys Hague Irene Jensen and Cal Hill all capably handled their characterizations in the one act play "O Elizabeth", with Ruth Gibb as Director. Their fine performance brought the entertaining evening to a close.

The quarterly party of the Friday Nite Club was held at the home of Fannie McBride on Monday night (this was also postponed on account of the storm) with Bernice Gardner, Manilla Meldrum, Myrtle Williams, Minnie Litchfield and Fanny Litchfield assisting the hostess. Salad, rolls, cocoa, ice-box cake and favors were the main events of the evening with Bingo and Rook following closely behind. Mrs. Meldrum won top honors in Rook with Mrs. Minnie Litchfield being awarded that soother of pride, the consolation prize. To say that a fine time was had would be an understatement.

Gertrude Anderson Honored

Monday evening in the Second Ward Recreation Hall, which was beautifully decorated in pink and green, a Shower was tendered Gertrude Anderson, bride-elect.

The many friends who called were greeted at the door by the charming bride-elect, and Mrs. Anderson, Mrs. Hudson, Norma Anderson, Colleen Christensen and Dorothy Bowden. The gifts were received by Mrs. Edna McLeod and her two little daughters Pat and Anne.

Elaine Stevenson, Marie Dahl, June Woodhead, Norma Dahl, Janet Turner Jean Meheew, Denise Bigelow, Mona Palmer and Iako Kitagawa served the delicious lunch to the guests seated at the prettily decorated table. Mrs. Rose Melchin was in charge of the refreshments and Mrs. E. L. Spackman was in charge of the tables.

The lovely wedding cake had place of honor on the brides table and was flanked by tall tapers.

A delightful program, with Ruth Salmon in charge, was enjoyed by all and included the following: Reading by June Anderson, Ladies Chorus, Solo by Velma Vance, Duet consisting of Maxine Dahl and Grace Selman, Solo by Jeanine Jensen, Reading by Lucy Stevenson and solos by Muriel Terry and Gen Hawkins.

Gertrude and Jim, who were seated against a background of green and pink streamers, were assisted by Dorothy Bowden, Norma Anderson and Colleen Christensen in unwrapping and arranging the gifts.

The marriage of Gertrude, daughter of Mr. and Mrs. June Anderson, and Jim, son of Mr. and Mrs. Arlie Hudson was solemnized in the Alberta Temple Tuesday, March 19th.

Mr. and Mrs. Glen Meeks have had as their guest recently Mrs. C. Cook of Lethbridge.

Capitol Theatre News

Coming to the Capitol next Friday and Saturday, March 30 and 31, is one of the greatest pictures of our time. It is John Ford's superb production in Technicolor "She Wore a Yellow Ribbon". It is a picture in the John Ford tradition of greatness with surging drama and high adventure. The Capitol management takes great pride in presenting this attraction and personally recommends same to the Theatre going public of our Town.

A special Holiday attraction is playing on Monday when the Capitol is presenting the outstanding production "Malaya" with a brilliant cast that includes Jas. Stewart, Spencer Tracy, Sidney Greenstreet, just to name a few. It is a most timely subject depicting the racket of the rubber plantations in Malaya.

Do you want to take a trip to the moon? The picture "Destination Moon" is coming soon so be sure and reserve your passage for this great adventure.

Serving one of Canada's richest irrigated mixed farming districts.

With Spring comes the thaw and with the thaw comes water, so Spring must be here 'cause we sure have lots of water. Those who can travel very far without almost wading are fortunate indeed. The roads are suffering the worst with great gushing torrents ripping through the gravel top. We hought for a while we were going to have to call Winnipeg to get some of their sacks when the water started lapping at our door sill, but a little irrigating turned the tide.

Water, although at times is a bother is something for which to be thankful. Scientists are now finding that if great care is not exercised in many parts of the world, their water supply will soon run out. Water is life and for life we should be truly grateful.

Released recently was the 1950-51 edition of the pocket encyclopedia, "Quick Canadian Fact". A digest-sized volume about Canada, the new book contains feature articles about the RCMP, about postage stamps, about the country's progress and system of government and a question-and-answer section that provides an informative quiz game covering many aspects of Canadian affairs. In its sixth year of publication "Quick Canadian Facts" contains 136 pages. It is distributed nationally through bookstores and news-stands. Get yours today, it is really an interesting little book.

The Second Ward Gleaners were hosts to the Jr. Gleaners Sunday evening when they met at the home of Mr. and Mrs. Les Palmer. Reed Walker was the main speaker for the evening followed by Dick Clark who told of some of his missionary experiences in Argentina, and Herb Bishop rendered a piano solo. A delicious lunch brought the evening to a close.

### Things You Should Know

(Continued from page 1)

The Government of Alberta provided trees for a wind-break on the west, free of charge. They also gave us some pine trees which to date have made no record growth. The Committee has planted early spring flower bulbs and it is their intention to plant new bulbs each year until they have sufficient flowers. A fee of five dollars was asked for the care of each plot for a season but to date many lots have been neglected and have gone with out care. Our equipment is not any younger; motor, pumps and hose wear out after a time. It is the Committee's aim, with the help of the citizens, to keep this project moving forward until we have a beautiful cemetery that we can all be proud of.

We, as a Committee, ask your support in our March 31 program, "LEST WE FORGET" at which time we will draw for the "Treasure Chest" valued at \$200.

### FARMERS WARNED TO TREAT SEED

Provincial Departments of Agriculture are stressing the annual pre-seeding precautions that farmers make sure of seed supplies and also to make sure of their cleaning and germination tests. The seed supply situation of 1951 may be unusual following the unusual crop season of 1950. This year some areas will find it difficult to get enough good seed.

In Canada the most serious of the seed-borne diseases for many years have been the smuts of wheat, oats and barley. Farmers are so familiar with these diseases that detailed description is unnecessary. Many know to their sorrow that a crop which grades "smutty" represents a serious loss of dollars.

What is the best form of treatment to avoid these possible losses?

The method most recommended by research chemists is the use of mercury. Well established commercial forms of it are available, cheap in price and easy of application. So well established not only in Canada but elsewhere has been the practice of using mercury become that many farmers now regard it as part of the job of sowing their fields during the Spring season.

Effectiveness of simple compounds of mercury as a preventative of some of common kinds of seed disease was discovered 60 years ago. Since then there has been a great deal of experimenting. Quite recently the work of two British scientists, Dr. Dillon Weston of Cambridge University and Dr. J. R. Boer, now chief scientist of the F. W. Berk Co. in England, clarified the situation. The company is the manufacturer of Leytosan mercurial dust and Leytosol "C", the new improved wet treatment. Leytosan appears to be established as one of the most effective of the mercurial dusts.

At any rate the technical work of Drs. Weston and Boer is being translated into millions of dollars for pockets of western grain farmers. It is now accepted that mercury dressings for seed give a wide range of protection to all crops. Canadian scientists have also established this.

In the west the experimental work for testing effectiveness of Leytosan and Leytosol "C" is carried on at Birtle, Manitoba, on land which used to be a provincial experimental farm.

### YOUR GOVERNMENT

(continued from page 2)

Something else Mr. Ure mentioned was an item of \$40,000 for seed cleaning plants. The same amount was offered last year, but no one took advantage of it. The year before four plants, at Westlock, Morinville, Wetaskiwin and Camrose were built and had cleaned half a million bushels of seed last year. The government puts up one third, and the municipality and the farmers are asked to put up one third each. He hoped this grant would be applied for this year. Michael Ponich, Vegreville, asked for information on the plants.

Recently W. F. Gilliland, Peace River, objected to the forestry policy of refusing to permit burning of brush and roots after April 1. In fact he dared the forestry officials to come up his way and show the residents how brush could be burned prior to that date, when there was likely to be two feet of snow on the ground. However, a meeting was held and Mr. Gilliland reported it had been agreed local fire rangers should issue burning permits at any time providing sufficient assurance could be given of fireguard precautions. Meeting with the forestry officials were: Mr. Gilliland, Ira McLaughlin, Grande Prairie; H. E. De Bolt, Spirit River; Robert Jorgenson, Pembina; Gordon Lee, Athabasca; Harry Lobay, Beaver River; Norman Willmore, Edson; J. W. Beaudry, St. Paul; Mrs. C. R. Wood, Stony Plain and William Kovach, Pincher Creek.

To conclude on a social note—Fred Niddrie, elected in the Olds bye-election last November, is back in the house. He had the tough luck to catch flu within the first few days and has been confined to his hotel room for two weeks.

O. B. Moore, Ponoka, has started a new business venture in Edmonton. He has opened a market stall to sell horsemeat—probably the first market exclusively for horsemeat in North America.

Max Fairbanks is home from Provo for a few days holiday.

**New Red Cross Hospital Opened..**  
In Calgary

More than a thousand Calgarians and hundreds from other Alberta points flocked Saturday afternoon (March 3rd) to a three-storey, red brick structure perched on one of the highest hilltops in Calgary's Killarney district.

They were attending the long-awaited opening ceremonies for the \$1,135,000, Alberta Red Cross Crippled Children's hospital.

Only a small proportion of the crowd was actually able to see the official opening which was held in the hospital lobby because of the unsettled weather, but the rest heard the ceremonies through loud-speakers placed in other parts of the building. Many more Albertans heard the ceremonies through province-wide radio hookups.

After the hospital was declared officially open by the Hon. Dr. W. W. Cross, Alberta Minister of health and public welfare, the audience was given the opportunity to inspect the magnificent new building from top to bottom.

"when we take into account the wonderful work done by this society and realize that it is mostly done by volunteers, and then look at this wonderful new structure which was built by donations, it is evident that the people of Alberta are a generous and warm-hearted people," Dr. Cross declared.

He paid tribute to the present and past officers of the society who had worked diligently, for so many years to turn the hospital from a cherished dream into actuality.

"When we look at the old hospital, inadequate as it was, and see how well administered it was," Dr. Cross concluded, "we can look forward to great success in this magnificent new building."

"The Canadian Red Cross Society will act as official agency for the procurement of blood and blood products for the armed forces by supplying sufficient quantities of dried blood plasma," said Defence Minister Brook Claxton recently. The Red Cross is also stockpiling blood plasma for civil defence needs.

In addition, the Red Cross will be responsible for the necessary sterile administration sets and pyrogen-free distilled water for the re-constitution of dried blood plasma, prior to use in transfusions.

"The offer of the Red Cross to supply this splendid service, which will necessitate not only increased financial support but the enrollment of many additional donors is most appreciated," Mr. Claxton said.

Alberta Blood Transfusion Service depots are in Edmonton and Calgary, with the mobile clinics reaching the outlying areas during the good weather months.

Kathleen Taylor Weds  
(continued from page one)

son received and arranged the many lovely gifts. Mrs. Myron Hamilton presided at the Guest Book. The Bridal Party received the guests against a baywindow covered with apple blossoms, and lighted tapers.

Mr. and Mrs. Stuart Card and Mrs. LaVern Anderson and Mrs. Kenney as hosts directed the guests into the candle lit room where the brides table upon which was sitting the beautifully decorated three tiered wedding cake, had place of honor. Each little table laid for four was gayly decorated with a taper and dainty flowers. The delicious lunch of strawberry shortcake and angel food cake with pink icing also carried out the color scheme, as did the lacy pink partition between the lunch room and the main part of the hall. Barbara Wing, Katherine Brandley, Katherine Keeler, Evelyn Heggie, Margaret Bridge with Edna Rolison in charge were serviteurs. They were all gowned in lovely pastel floor length dresses. Mesdames Phoebe and Emma Dahl and Retta Heggie assisted in the kitchen.

For the entertaining program which followed with Bob Brandley as the jovial M. C., the bride and groom were seated on a couch draped in white in the shade of an apple tree in full bloom.

Katherine Keeler played a lovely piano solo, Laura Watson, Gen Hawkins and Evelyn Melchin sang "Love Everlasting" after which Elizabeth Brandley told the touching "Wedding Story". Mary Newman sang "I Will Love You Always" followed by short extemporaneous talks by the bride and groom and their parents. Laurie Harker and Pat Strong singing "My Wonderful One" brought the evening to a close.

For her 'going away' Mrs. Newman chose a mauve silk print dress and a mauve shorty coat with push-up sleeves, and long white gloves. An orchid corsage was pinned to her coat.

The happy couple spent a few days in Banff after which they motored to Ogden, and from there they plan to fly to LaVegas. They will make their home in Salt Lake on their return.

Mr. and Mrs. L. D. King returned home this week after an 18-week vacation spent in the warm sunshine of Arizona and other states. On their way south they spent three weeks visiting with relatives and friends in Utah and then took up residence in Mesa, Arizona, a place that seems to have a great fascination for holidaying Canadians. While there the Kings joined about 150 other Canadians for a banquet and dance and they report that it was some doin's. In Mesa Mr. and Mrs. King were surrounded by friends and neighbors from this district.

On their return journey they were tied up by a strike of Greyhound employees in Los Angeles. After spending many weary hours standing in line waiting for their bus to bring them north they were told of the strike. After a few hours sleep they boarded a Trailways bus that carried them to Seattle where they spent ten days with their son Louis and his family.

The Kings, although home and glad of it, are still feeling the effects of the bus company strike in Los Angeles. It took twelve days for Mrs. King to get her baggage and even now, almost a month later, L.D. is still awaiting the arrival of his.

Mrs. Orson Anderson is now working as assistant librarian in the local library.

Subscribe to the Recorder for your out of town friends; they will enjoy it.

### A Helping Hand

Two women were talking about their husbands in that indulgent manner they are accustomed to use when on that subject.

"Henry is perfectly helpless without me," said one.

"John is that way, too," said the other. "I don't know what would become of him if I went away for a week."

"Isn't it a fact?" sighed the first. "Sometimes I think my husband is a child the way I have to look after him. Why, whenever he is sewing on buttons, mending his clothes, or even darning his socks, I always have to thread the needle for him."

The local library is starting the spring cleaning ball rolling this week and in order to finish up the job, will be closed until Wednesday at the usual time.

*GIVE from your heart!*

Mr. and Mrs. Lincoln Wood were hosts to a Sunday night Club this week with pleasant conversation and a delicious lunch being enjoyed.

Another shipment of Linoleum has arrived at Stone's. Included are Rexolium, Congoleum and quality inlaid in 6 and 12 foot widths.

In honor of Mary Stone's and Bruce Galbraith's birthdays, Bishop and Mrs. Snow entertained the bishopric at their home for an enjoyable Sunday evening of conversation and lunch. Mr. and Mrs. Murray Holt and Mrs. J. T. Heninger of Lethbridge were also guests, and Mrs. Mendenhall was assistant hostess.

## Protect your herds! One injection of BOVIGEN

will cut your losses from Blackleg, Malignant Edema and Shipping Fever

Now... you can get safe, dependable, low cost protection against Blackleg, Malignant Edema and Shipping Fever. And... instead of having to vaccinate separately for each disease... you can do the complete job with one injection of Bovigen... the "triple antigen" that gives three-way protection.

### Don't Wait... Vaccinate

If you wait until your animals show signs of Blackleg or Malignant Edema, you may be too late to do anything about it. Usually, an animal infected with either of these diseases will die in 24 to 36 hours. So... the thing to do is check disease before it starts. And, the way to do it is... vaccinate with Bovigen. Remember... Bovigen is a preventative. You get the full benefits... cut costly losses... when you use it before disease starts.

Only Costs a Little to be Safe When you consider that one dose of Bovigen protects a-

gainst three diseases... the cost per dose is surprisingly low. Then, too, you save time in injecting... one operation instead of three.

Simple and easy to administer... all you do is follow the instructions. They're in every package. Bovigen comes in three handy sized bottles... 5... 10 or 25 doses per bottle. Get the size that suits your herd.

Bovigen is supplied by the VETERINARY DIVISION **SHARP & DOHME** (Canada) Ltd., Toronto 13, Ont.

**Your Whiskers Are Dead!**  
It's your skin that hurts when you shave!  
That's why you need medicated  
**3 Way Shave**

It is good for your skin

Here is what is so different about "3-Way Shave"

It does these three things:

1. **Fast, easy PAINLESS SHAVES** — softens — "welts" the toughest beards — for a smooth, really comfortable shave. No whisker pull!
2. **STOPS IRRITATION** — heavier film aids razor glide! Good for your skin — leaves it smooth, healthy and comfortable.
3. **It's Medicated, HELPS HEAL** the nicks and cuts of razor-scraped skin — soothes, protects tender skin.
